Description

- The "Default to Tax Liable" app extension for Microsoft Dynamics 365 Business Central simplifies the setup process by automatically toggling the tax liable setting on when creating a new customer or ship-to address. This feature is particularly beneficial for stores and businesses where all customers are subject to tax, ensuring consistent and efficient tax handling.

Extension Setup or Configuration Page

- There are no additional settings to configure.

Operation Instructions

- The extension will override all previously created templates, applying the tax liable setting as the default for all new Customer Cards or Customer Ship-To Address records.
